WORK EXPERIENCE

Full Stack Developer
Manifold Consult Pvt.Ltd

07/2024 - 08/2024

Achievements/Tasks

- Built, maintained and integrated the company's new Responsive website
- Utilized MongoDB for database management, performing CRUD operations to manage user data and application states.
- Implemented RESTful APIs using Node.js and Express.js, facilitating seamless communication between the frontend and back-end systems.
- Used Git and GitHub for version control and collaboration, ensuring a streamlined and organized development process.

SKILLS

ReactJs Tailwind Css NodeJs Express.js

MongoDB Html5 Material Ui

Responsive Designs JavaScript

PERSONAL PROJECTS

E-Commerce (08/2024 - 10/2024)

- Developed a full-featured e-commerce platform with a responsive user interface using React and Material-UI. The application includes product listings, category filtering, and a dynamic search functionality. Implemented an intuitive cart system with real-time price calculations, order placement, and payment options. Integrated backend APIs with Express.js and MongoDB for handling user data, orders, and inventory management. Added features such as product reviews, ratings, and a related products section to enhance the shopping experience. Focused on delivering a user-friendly, scalable, and mobile-responsive design for commercial use.

Messaging Webapp (05/2024 - 05/2024)

- Designed and developed the frontend of a real-time messaging web app using React and Material-UI for a modern, responsive interface. Integrated rich-text message formatting, media file sharing, and dynamic notifications for seamless user interactions. Focused on creating a clean, intuitive user experience across different screen sizes with mobile-first design principles. Enhanced performance by optimizing component rendering and state management using React hooks and context
